

Dear Frank Brenner and Alex Steiner,

I have followed your web site (www.permanent-revolution.org) with interest since being expelled from the US Socialist Equality Party over a year ago. I wish I would have known then what I know now. Your web site is a great resource to the socialist movement. Within the SEP, and likely for readers of the WSWS, the theoretical issues that you raise are seriously misunderstood. I have attempted to rectify the situation by writing a concise summary of the main theoretical issues raised by your polemics. I have posted this summary at my blog:

<http://socialism-science.blogspot.com/2009/06/revisiting-steiner-and-brenner-polemics.html>

I would appreciate if you could bring this to the attention of your readers.

With best regards,
Mark Rainer
